

Advanced technology

Technology is the magic of the 21st Century

Thanks to the amazing capabilities of modern lighting, you can work, relax and play all day long! We spend more time in artificial light than ever before. That is why it has to be perfect! And this is exactly what Kanlux IQ-LED is.

Kanlux IQ-LED products are manufactured on automated production lines. We implement the concepts of our designers with perfection.

Our LED bulbs not only illuminate, but also ensure the safety of your eyes and skin.

The design of the IQ-LED GU10 bulb:

IQ-LED GU10 7W

1 Optical system
Provides even light distribution.

2 LED module
Specially selected LED's mounted on it ensure the highest quality of light.

3 Driver
The driver ensures the proper operation of the LED's. The design used in Kanlux IQ-LEDs ensures stable source operation.

4 Housing
The correct operating temperature of the driver and the LED module is ensured by the housing design.

IQ-LED Kanlux is a piece of sunshine

The magic of light starts with Kanlux IQ-LED.

Nature is part of us, and light is part of nature. The new Kanlux IQ-LED bulbs are like a spell bringing natural light into our lives.

A healthy life, comfortable work, wonderful family moments - this is the charm of well spent time, for which the right light is of great importance. Thanks to Kanlux IQ-LED you know that you are surrounded by light created specially for you.

This light is close to nature and close to your needs. A piece of the Sun for you and your family.

We're with you over 30 years!

The perfect product is created by excellent specialists - that's how it was 30 years ago and it's still the case.

Kanlux is present on the big three lighting markets*. Millions of our products can be found in apartments, homes and office buildings.

Just like dozens of developers and thousands of professionals all over Poland, you can count on us.

Kanlux IQ-LED sheds new light on the market!

* In the category of light sources based on the study "The lighting market in Poland" of 10 November 2017 carried out by PMR Consulting & Research for Kanlux SA

Safety Regular Production Surveillance

www.tuv.com ID 0000055711

German Certificate of Excellence

Our technology was appreciated by TUV Rheinland, from whom we received a certificate confirming the highest level of quality and safety. For Kanlux, the TUV certificate is a reason to be proud, and for you a guarantee of credibility. This is more than some of the world's largest manufacturers ensure.

WARRANTY 3 years

Operating guarantee

We are confident in the products we provide. For every Kanlux IQ-LED bulb, we give 3 years' warranty! Additionally, we do this with a smile, knowing that they will not disappoint you.

Adjustable LED bulbs

DIM is a shining star in comparison with the other products in the Kanlux IQ-LED line. It is a unique LED bulb which allows you to smoothly adjust the light intensity in one motion. It is highly convenient, a great pleasure, and provides unlimited possibilities of interior arrangement.

IQ-LED Kanlux a new light on the market!

The new series of LED bulbs from Kanlux is the first league of quality and technology.

Colours like in daytime

Kanlux IQ-LED bulbs are available in 3 light colours (2700K, 4000K, 6500K). You can customise them according to your needs. Some of them are perfect for the living room, others for reading or the bathroom.

Kanlux IQ-LED - everything is more visible!

TRUE COLORS

Choosing IQ-LED Kanlux with a high color-rendering index Ra95 you decide on the natural color perception of surrounding objects. It's effective and natural way to get to know authentic colors, clothes, walls, furniture, paintings, and even plants or fruit.

Safety is essential

Kanlux IQ-LED meets the most-stringent technical and optical standards which can be set for LED light bulbs. Every detail of their design, production and usability has been tested and certified by TÜV Rheinland.

Quality matters

A good design must be followed up by fine workmanship. Only then do you have a product you can rely on. In the Kanlux IQ-LED line, everything is premium - from branded, failure-free chips and proprietary Kanlux solutions, to almost fully automatic production.
